

## DATASHEET

## DC107

Steel door recessed mount contact

## MAIN FEATURES

- Steel door recessed mount contact

## TECHNICAL SPECIFICATIONS

## Inputs / outputs

|                             |                    |
|-----------------------------|--------------------|
| Contact type                | NC                 |
| Wired-wireless              | Wired              |
| Dimensions contact / sensor | 24 x 29 mm (Ø x H) |

## Physical characteristics

|                   |                    |
|-------------------|--------------------|
| Dimensions magnet | 24 x 40 mm (Ø x H) |
| Colour            | White              |

## Environmental characteristics

|               |             |
|---------------|-------------|
| Operating gap | 9 mm (max.) |
|---------------|-------------|

## Other characteristics

|                   |                |
|-------------------|----------------|
| Application type  | Recessed mount |
| Connectivity      | 4 wires, 2 m   |
| Diameter          | 19 mm          |
| Borehole diameter | 19.1 mm        |
| EN50131 grade     | Grade 2        |
