MAIN FEATURES

- Per-meter activation license applicable to FP115040U and FP115040H Sensor Units for fence-mounted applications. The number of meters licensed needs to cover all cable beyond the initial lead-in section (max 500 meters) including all service loops
- isolation loops
- gate bypasses
- etc. Initial lead-in in excess of 500 meters needs to be added to the licensed section. Each meter licensed activates both sensor channels.
