

GS711

Shock sensor with magnetic contact

MAIN FEATURES

- Shock sensor with magnetic contact

TECHNICAL SPECIFICATIONS

Inputs / outputs	
Wired-wireless	Wired
Physical characteristics	
Mounting location	Glass, window/door frame, wall or roof
Physical dimensions	27 x 25 x 72 mm (H x D x W)
Colour	White
Environmental characteristics	
Operating temperature	-40 to +50°C
Other characteristics	
Product type	Magnetic contact, Shock
LED indication	No
Reed switch	Yes
Range	Up to 6 m, 25 mm Operating gap
