

DATASHEET

NC-D-PT

Conventional hand held device programmer

MAIN FEATURES

- Conventional hand held device programmer

TECHNICAL SPECIFICATIONS

Power supply

Current consumption	≤100 µA (Standby) ≤8 mA (Operating)
Auto power off	100 s

Physical characteristics

Physical dimensions	64 × 164 × 24 mm (w x h x d)
Net weight	150 g
Colour	Grey
Material (body)	ABS

Environmental characteristics

Operating temperature	-10 to +65°C
Storage temperature	-30 to +75°C
Relative humidity	10 to 95%, Non-condensing
Environment	Indoor

Other characteristics

Status indication	LCD display
User interface	LCD display
Compatibility	NC-Series point & beam detectors
Connectivity	I2C & fly leads with clips
Batteries	1 x 9 V (Laminated)
No. of cable cores	2

NC-D-PT

TECHNICAL SPECIFICATIONS

Terminals

1

Vandal proof

No

Compliance

CE, REACH, RoHS 3, WEEE

Category

Reference

Detection device

NC-DBO
