

DATASHEET

RF-DC101B-K4

Wireless

MAIN FEATURES

- Wireless
- surface mount DWS
- mahogany
- 433Mhz
- 80+

TECHNICAL SPECIFICATIONS

Power supply

Power consumption	max 70 mA at 3 V
Voltage	3 V
Contact power	Maximum power output : 10 mW
Battery lifetime	>5 years with supervis. signal per 15 min. and 4 activations/hour

Inputs / outputs

Contact type	Reed switch
Wired-wireless	Wireless
Wireless frequency	433 MHz LoNa
Dimensions contact / sensor	101 x 31 x 28 mm

Physical characteristics

Net weight	59 g
Colour	Mahogany

Environmental characteristics

Operating gap	7 to 13 mm
Operating temperature	-10 to +55°C
Storage temperature	-34 to 60°C
Relative humidity	0 to 90% noncondensing

Other characteristics

Application type	Surface mount
------------------	---------------

RF-DC101B-K4

TECHNICAL SPECIFICATIONS

Open-air range

Batteries

EN50131 grade

400 m

1300 mAh (DL123A)

Grade 2
